1. Executive Summary

Example Logistics SRL (fictional) is an active freight-forwarding company. Control is concentrated in **Elena Fictiv**, who holds 70% directly and sits on the board of the 30% shareholder, **Sample Holding Ltd. Ion Exemplu** has been administrator since 2019. The corporate infrastructure is consistent and self-hosted. No confirmed adverse findings; one unverified forum allegation about late supplier payments remains open.

Overall assessment: low-to-moderate counterparty risk, subject to the open items in Recommendations.

2. Scope & Objectives

Purpose of investigation: Pre-contract due diligence on Example Logistics SRL (fictional freight company) before signing a 3-year transport agreement.

In scope: publicly available open-source information relating to the subject(s) listed in this report.

Out of scope: any non-public data, intrusive collection, or unauthorised access.

Constraints: OSINT only; findings reflect data available at the time of production and may change.

3. Methodology

Intelligence was collected using automated OSINT collectors and manual review, then cross-referenced and confidence-scored.

Automated collectors used:

- DNS & WHOIS Lookup
- Email Breach Check
- Social Profile Discovery
- Web Search

Validation: sources were cross-referenced where possible; each item carries a status (pending/confirmed/rejected) and, where available, a confidence score.

14. Recommendations

- Request the latest financial statements and a payment-behaviour reference from two existing suppliers.
- Ask the company to rotate credentials for office@example.com and confirm MFA on mail.
- Proceed with the agreement subject to standard payment-term safeguards.

15. Conclusion

Based on open-source evidence, Example Logistics SRL is a legitimate counterparty with no confirmed red flags. Remaining open items are low-impact and can be closed through standard supplier onboarding checks.
